EXPERIENCE

Web Developer · Internship — Full-stack

2025 · 4 months
JDC Occitanie — Montpellier

- Built a full-stack SMS platform from scratch for JDC clients: single and bulk sending, scheduling, CSV/Excel import.
- Integrated **Stripe Checkout** for billing (packs from 100 to 5,000+ SMS) and JWT authentication with role-based access control (Admin / User).
- Designed a real-time dashboard via Socket.io: API monitoring, delivery rate tracking, and exportable history.

Freelance Webmaster

2020 – present
L'Assiette du Boucher — Montpellier

- E-commerce site administration (WordPress / Shopify) + Google Business.

PROJECTS

SNCard — sncard.fr — NFC Web

Next.js 16 · React 19 · TypeScript · Three.js · Stripe · Tailwind · Vercel

NFC solution for retailers: the card lets customers leave a Google review with one tap, no app needed. From the 3D landing page (React Three Fiber) to the Stripe payment tunnel, deployed in production on sncard.fr.

QuizGenAI — Hackathon — 1st place · 48h

React · Vite · Tailwind · OpenAI API · genaihackaton.pages.dev

Quiz app with **questions generated by AI** via the OpenAI API. Built as a team in 48h at the Epitech GenAI Hackathon. 1st place across all teams.

Salon du Cheval de Paris — Redesign — Project Week · IONIS

Project lead · team of 6 (3 dev + 3 design) · Epitech × EartSup × marketing

Complete redesign proposed to VEL (70,000+ visitors/year). **Project leadership** + contribution to the website, the visitor-flow mobile app, and merchandising.

E-gine — SaaS B2B

Next.js 16 · React 19 · TypeScript · PostgreSQL · Prisma · Stripe · Tailwind

B2B prospecting platform: search businesses by niche and geographic area via the Google Places API, advanced filters (rating, reviews, website, phone), campaign system with statuses (to contact, contacted, followed up, closed) and CSV export. Authentication, Stripe payment, and analytics dashboard.

StartTrek — Deep Reinforcement Learning — PyTorch · DQN

Python · PyTorch · Gymnasium · NumPy

Deep Q-Learning agent trained to autonomously land a lunar module (Gymnasium LunarLander). Full from-scratch implementation with reproducible benchmarks.

404::FutureNotFound — Game Jam · 48h

16×16 pixel art · 2D top-down

Top-down game built in 48h for a Game Jam (theme: « It's not a bug, it's a feature »). Futuristic map, time travel via glitch rifts, 4 waves of zombies.

Academic · Epitech — C · systems

Mini-Shell — Unix shell reimplementation in C (parsing, pipes, redirections, process management). **My-World** — isometric 3D map rendering from a .bsq file via CSFML. **Piscine Tek1** — intensive 5-week C/Unix bootcamp.
